

Mathematician:

Big Idea: Represent and describe numbers to 1000 gr 3, 10 000 gr4, 1 000 000 gr5, large numbers gr6 and 7 - PARTITIONING.

Based on the book: 365 Penguins by Jean-Luc Fromental

How many penguins (sum)? 72 Number of rooms (addends)? 4	Work Space	Equation that represents your penguin partition.
How many penguins on April 1st? Number of rooms? 5	Work Space	Equation that represents your penguin partition.
How many penguins on September 21st? Number of rooms? 6	Work Space	Equation that represents your penguin partition.

4 ways to partition _____

How many penguins? Number of rooms?	Work Space	Equation that represents your penguin partition.
How many penguins? Number of rooms?	Work Space	Equation that represents your penguin partition.
How many penguins? Number of fields?	Work Space	Equation that represents your penguin partition.
How many penguins? Number of rooms?	Work Space	Equation that represents your penguin partition.
